

# City Lights

*I get down when I'm toein' line  
Makin' sense out of wastin' time  
Watchin' walls and the TV's fine  
But seems there's got to be something better for my mind  
I hear a voice whisperin'  
I know it's time to come see you*

*In the city lights  
Bathe my mind in the light  
City lights*

*I get lost in the city lights  
Seems I been here for most of my life  
Draw the line and step on the other side  
Ease on down the electric slide  
Gonna let my mind run free tonight  
Gonna take some time and come see you*

*In the city lights  
Bathe my mind in the light  
City lights*

*Gotta get up  
Gotta take a walk around  
Get up – got to take a walk around*

*In the night we'll be rollin'  
when the morning comes I'll be strollin' you home*

*Gonna let my mind run free tonight  
Gonna take my time and come see you  
In the city lights  
Bathe my mind in the light  
City lights*
