

Long Live the Land

*Long live the land
Long may it stand
For how long shall the leaves sway in the breeze?
Long live the land*

*Long live the sea
Long may it be
For how long can the waves wash themselves clean?
Long live the sea*

*So it all boils down
To when will we all come 'round
To think of what we do
Me, and you, and you*

*Long live Man
Long as he can
For how long shall it be before he can see?
Long live the land
Long may it stand*
