

Love Is Sure To Come To Us All

*Lift Your head up from the ground
Now's the time to turn around
Look ahead and leave behind
Thoughts of things too hard to find
Your fate has never been to do yourself in*

*Never once have I heard you say,
"Oh my soul, what a beautiful day"
Look ahead and leave behind
Thoughts of things too hard to find*

*Your heart's the only one
That knows what's good to be done
And that love is sure to come to us all*

*You can't leave this world behind
There's no use in even tryin'
Live but once and leave behind
Thoughts of things too hard to find*

*Then no matter what you do
Love will come to you
As love is sure to come to us all*
